MILLINERY OPENING TUESDAY AND WEDNESDAY, October 6th and 7th.

THE FORMAL INTRODUCTION OF AUTUMN MILLINERY.

We shall be pleased to see you. Our great display of IMPORTED HATS and BONNETS, as well as the production of some of the most dainty, tasteful, and unique styles from our work-room, will be shown on TUESDAY and WEDNESDAY. We have had cause repeatedly to submit to the variety of exclusive styles shown at our opening, but never have we been so successful in securing extreme novelties as this season. A glance here and there in our cases is sufficient to convince one that nothing has been forgotten to make this display of Trimmed Head-Gear a memorable occasion with the ladies. It would be difficult to know where to begin and more difficult to decide where to end in making mention of our large assortment of FELT HATS, including Large and Small-Shape Turbans, Toques, English Walking and Tourist's Hats and Caps; also, BOY'S CAPS in very attractive new shapes. It must suffice the reader to know that everything demanded in all departments of Millinery can be found here.

CLOAKS AND CAPS.

The display made in our show-window to the left as you enter gives one an idea how we are prepared this season to cater to the wants of the little ones. Our assortment of Infants Long Cloaks and Short Walking Cloaks for children was never so large and complete as now. The like is not elsewhere to be found in the city.

CAPS and HATS made of Silk, Cashmere, Plush, Crepe de Chine, &c., to match the cloaks, shown in all sizes.

We solicit your inspection.

FALL AND WINTER FASHIONS.

Monday morning will find us with an increased force of salesmen and salesladies to show our complete exhibit of Fall and Winter Fashions.

Our business has now assumed such great proportions that we are enabled to save a considerable percentage for our customers by our direct dealings with European and American manufacturers.

While we delight in expressing our appreciation of steadily increasing patronage we believe that in no other way can we better deserve a continuance of public favor than by promoting its interests with our recognized extraordinary low prices for high qualities. Another important feature is that everything in our fall stock is new, fresh goods, all purchased this season, and consequently we have no old styles or old goods of any kind to offer, as those we all disposed of at our great closing-out sale prior to our removal from Main street. We solicit a general and unlimited inspection of our New Fall Stock, which is larger, more varied, and better in every way than was ever before placed before the people of the South.

Cloaks and Wraps.

No such styles, no such values can be found elsewhere. Ladies are requested to compare our styles and prices with those of other houses. The largest stock in the city. The largest space devoted exclusively to the display of Cloaks of any house south of New York. These immense advantages in our favor will be immediately apparent.
